RIVERBED NETIM

NetIM Device Query

Get the details you need about any network device in seconds, and take them away as a spreadsheet.

Ask for what you need

Pick a device and the details you want. No NetIM training required.

1 Find the device

Start typing a name and choose from the suggestions.

2 Choose the details

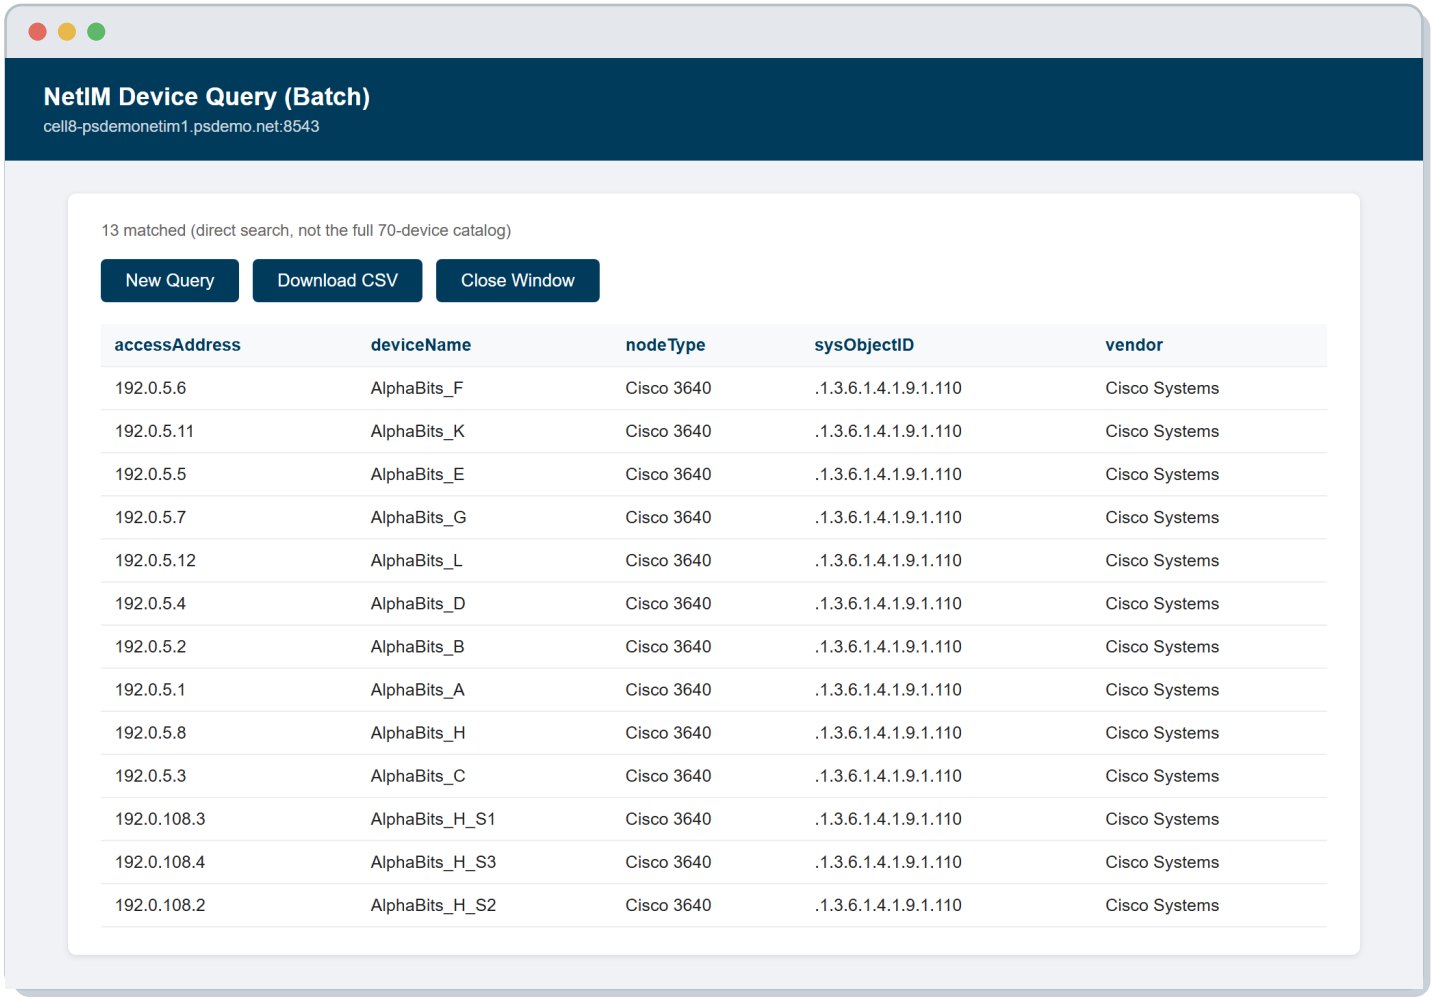

Address, vendor, model, software version, location, and more.

3 Click Generate Report

The answer comes straight from NetIM.

Get answers instantly

Type part of a name to see a whole group at once. Here, all 13 AlphaBits routers.

accessAddress	deviceName	nodeType	sysObjectID	vendor
192.0.5.6	AlphaBits_F	Cisco 3640	.1.3.6.1.4.1.9.1.110	Cisco Systems
192.0.5.11	AlphaBits_K	Cisco 3640	.1.3.6.1.4.1.9.1.110	Cisco Systems
192.0.5.5	AlphaBits_E	Cisco 3640	.1.3.6.1.4.1.9.1.110	Cisco Systems
192.0.5.7	AlphaBits_G	Cisco 3640	.1.3.6.1.4.1.9.1.110	Cisco Systems
192.0.5.12	AlphaBits_L	Cisco 3640	.1.3.6.1.4.1.9.1.110	Cisco Systems
192.0.5.4	AlphaBits_D	Cisco 3640	.1.3.6.1.4.1.9.1.110	Cisco Systems
192.0.5.2	AlphaBits_B	Cisco 3640	.1.3.6.1.4.1.9.1.110	Cisco Systems
192.0.5.1	AlphaBits_A	Cisco 3640	.1.3.6.1.4.1.9.1.110	Cisco Systems
192.0.5.8	AlphaBits_H	Cisco 3640	.1.3.6.1.4.1.9.1.110	Cisco Systems
192.0.5.3	AlphaBits_C	Cisco 3640	.1.3.6.1.4.1.9.1.110	Cisco Systems
192.0.108.3	AlphaBits_H_S1	Cisco 3640	.1.3.6.1.4.1.9.1.110	Cisco Systems
192.0.108.4	AlphaBits_H_S3	Cisco 3640	.1.3.6.1.4.1.9.1.110	Cisco Systems
192.0.108.2	AlphaBits_H_S2	Cisco 3640	.1.3.6.1.4.1.9.1.110	Cisco Systems

1 Up to date

Every report is pulled live from NetIM.

2 Just what you asked for

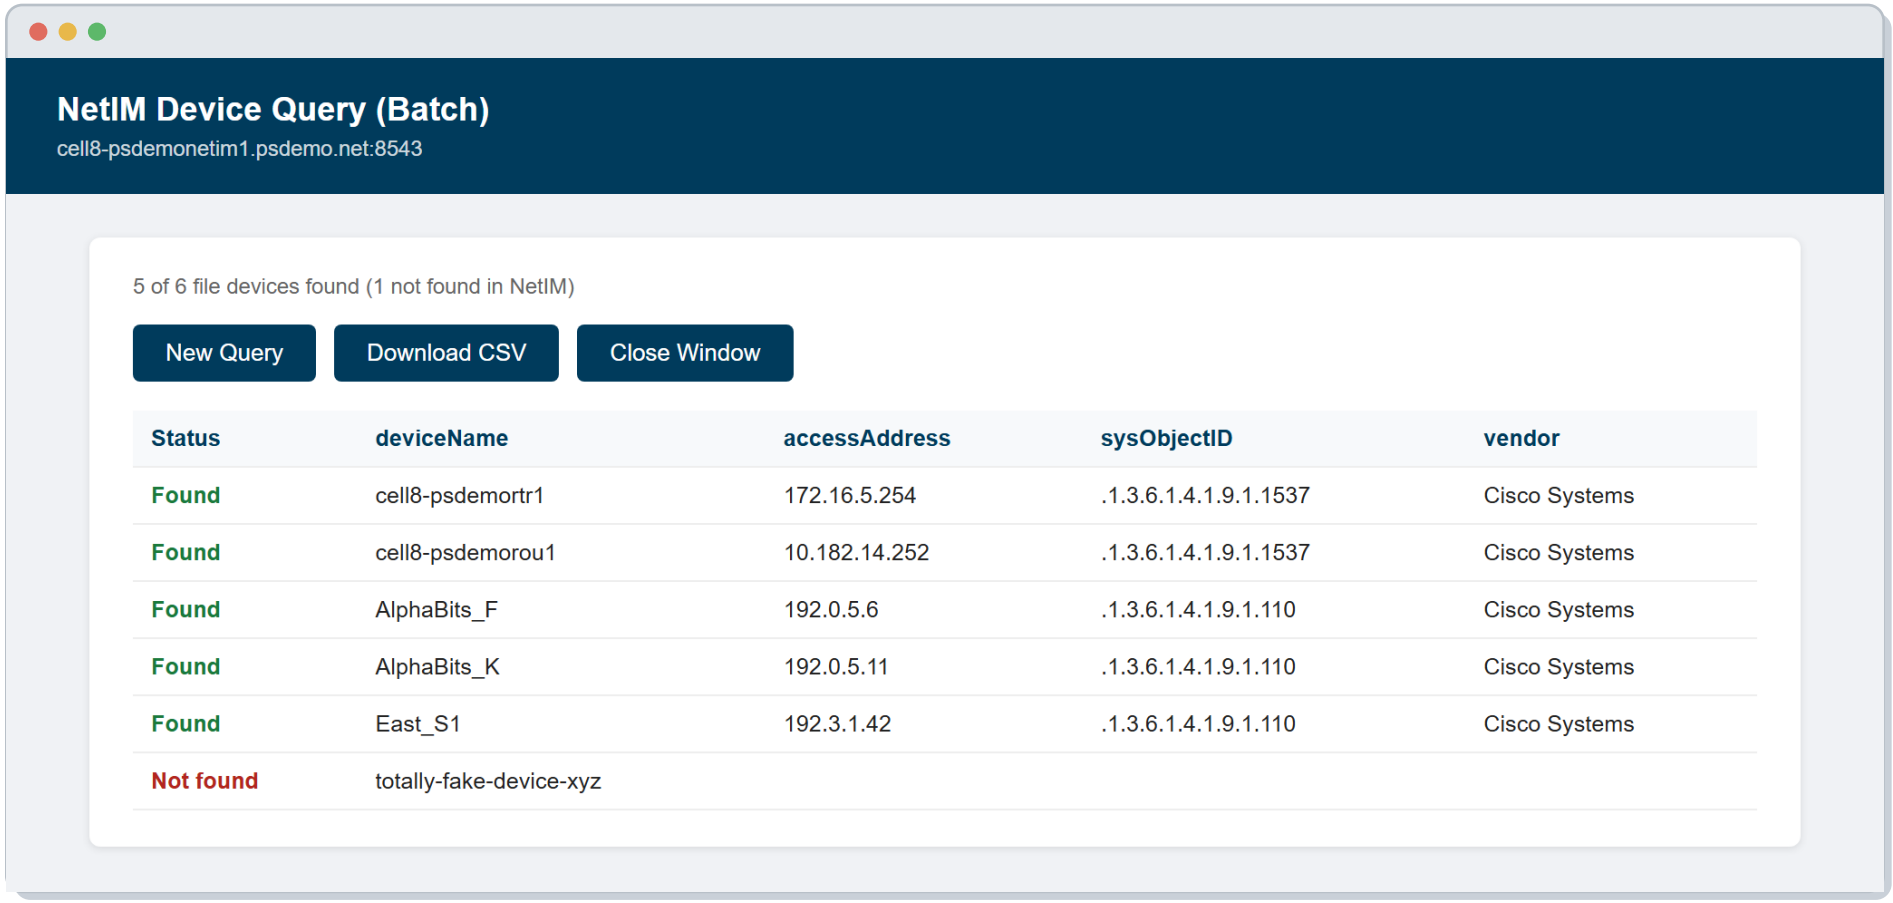

Only the details you picked, in a clean table.

3 One click to Excel

Download CSV opens straight in a spreadsheet.

Check a whole list at once

Upload a list of device names and get one combined report, however long the list.

1 Found

The device is in NetIM, with its details filled in.

2 Not found

Typos and missing devices stand out right away.

3 Ready to share

Hand the spreadsheet to anyone, no NetIM login needed.

Why it matters

Answers in seconds that used to need a NetIM expert.

Saves time

No digging through NetIM screens one device at a time.

Anyone can use it

Point and click. No training on NetIM needed.

Safe

It only reads from NetIM and never changes anything.

Easy to share

Results go straight to a spreadsheet for any team.
